

Earth Materials

by _____

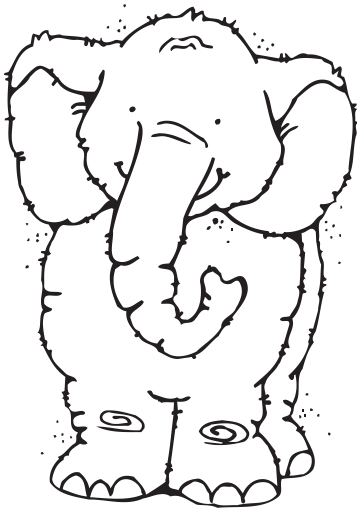

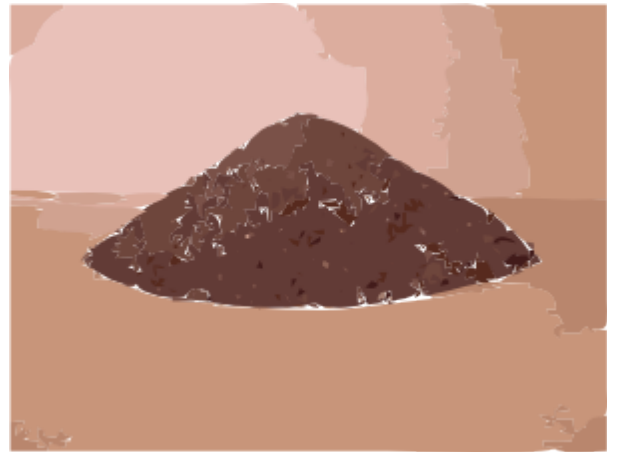

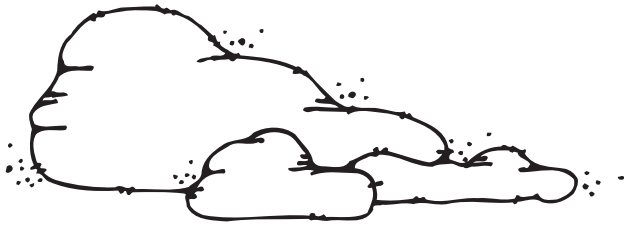

The earth is made of 3 materials -
Air, land and water.

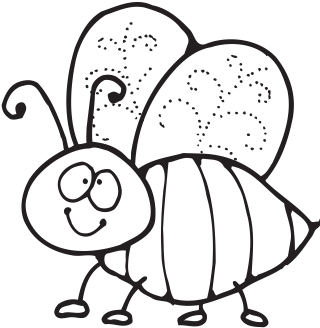

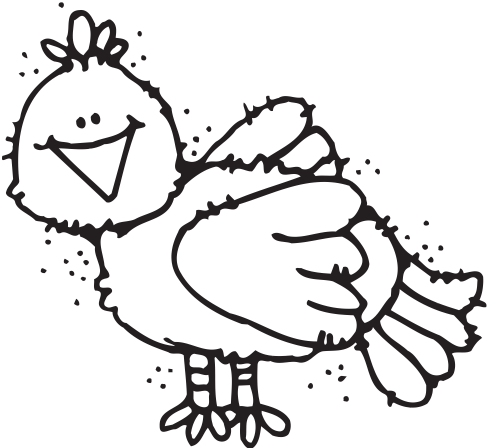

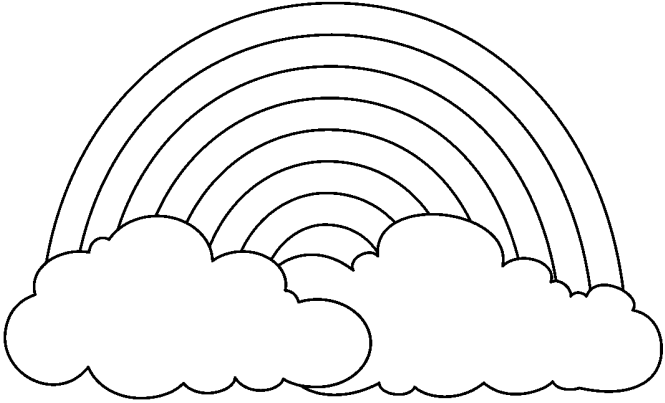

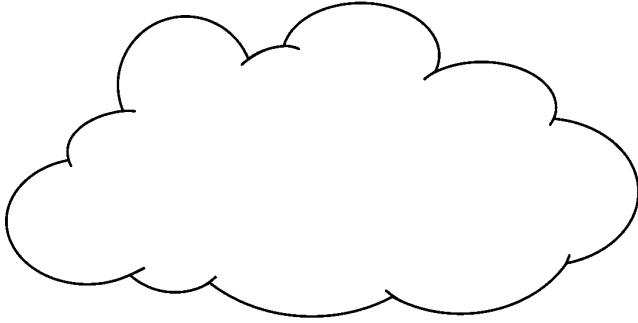

Air is all around the earth ,
but you can't see it.

We see clouds and rainbows in the air.
These animals live in the air.

Land is made of soil and rocks.
There are mountains, valleys and plains.
These animals live on the land.

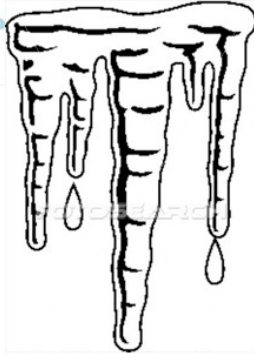

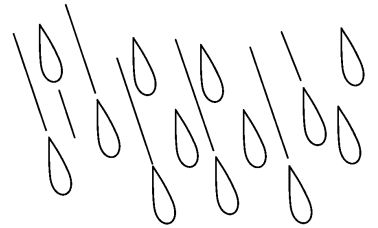

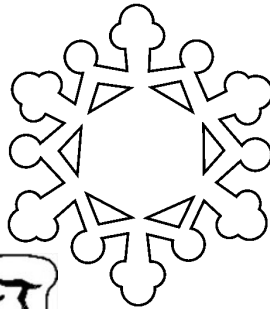

Water is in oceans, rivers and lakes.
Ice, snow and rain are all water.
These animals live in the water.
